Press Release

VIVID IP to Lay Cable at Hoover Dam

San Diego, CA, January 2008: VIVID IP has been contracted by SAIC to install a RF over Fiber system supporting both the Hoover Dam Police Department as well as the Maintenance Department. This project extends the signal used by the Hoover Dam Police Department, and all First Responders including Homeland Security, State Police and the FBI.

VIVID IP is Southern California's leading source for business-class IP-phone solutions, including equipment, cabling, installation, and support. VIVID IP's experts can help you design, implement, and maintain a reliable and cost-effective communications network by offering complete and proven solutions for single- or multi-site businesses including remote-user environments.
