Press Release

JB Networks Merges with VIVID IP

San Diego, CA, April 2007: JB Networks has merged with VIVID IP; this new merger brings the strengths and talents of Mr. Jack Davis the owner of JB Networks and his years of experience as a ILw Voltage, Fiber, Access Control & AV contractor. Jim Comeaux of VIVID IP Network is thrilled to have joined forces with Mr. Davis from JB Networks and they look forward to offering new services and continued support to customers of JB Networks and VIVID IP.

VIVID IP is Southern California's leading source for business-class IP-phone solutions, including equipment, cabling, installation, and support. VIVID IP's experts can help you design, implement, and maintain a reliable and cost-effective communications network by offering complete and proven solutions for single- or multi-site businesses including remote-user environments.
