Press Release

VIVID IP Announces CEO and CTO

San Diego, CA, May 2007: Mr. Jim Comeaux has been named the Chief Executive Officer and Mr. Michael Zadeik has been named the Chief Technical Officer at VIVID IP. Both gentlemen bring years of experience the communications industry and are excited to be working together again.

Mr. Comeaux has more than 17 years experience High Tech, Wireless Sales and marketing, business development and network design and deployment. Prior to co-founding VIVID IP, Jim co-founded and worked as the CTO & Executive Vice President (EVP) of Strategy for VoloNet Technologies, Inc. dba RedWire, one of Southern California's premier ISP/WISP/VoIP service providers to SMBs.

Mr. Zadeik has more than 20 years of experience in the communications industry, primarily focusing on delivering voice communications systems and services to enterprise customers. Prior to joining Redwire through its 2005 acquisition of Eclipse Communications, Inc., Michael was a founding partner and CTO of Eclipse, where he was responsible for delivering services such as installation and maintenance, structured cabling and customer support and maintenance to its customer base.

VIVID IP is Southern California's leading source for business-class IP-phone solutions, including equipment, cabling, installation, and support. VIVID IP's experts can help you design, implement, and maintain a reliable and cost-effective communications network by offering complete and proven solutions for single- or multi-site businesses including remote-user environments.
