VIVID IP

Press Release

Samsung Certified Dealer

San Diego, CA, September 2007: VIVID IP is now a certified dealer of Samsung OfficeServ 7100/7200/7400 series business telephone switch and associated IP handsets to small and medium sized businesses requiring a converged networking environment. This solution incorporates support for traditional local, long distance, IP voice and data, wireless services, as well as access to administrative portal and standard business class functionality. Importantly, this series of telephony products reduces the complexity involved with initial installation and programming as well as subsequent moves, additions and changes, and supports central and branch office networking.

VIVID IP is Southern California's leading source for business-class IP-phone solutions, including equipment, cabling, installation, and support. VIVID IP's experts can help you design, implement, and maintain a reliable and cost-effective communications network by offering complete and proven solutions for single- or multi-site businesses including remote-user environments.
